EDUCATION

Franklin & Marshall College — Lancaster, PA
Bachelor of Arts, Computer Science — *May 2026*

- **GPA:** 3.72/4.0 (Major GPA: 3.82/4.0) | Honors List: Fall 2021, 2023, 2024, 2025 | Dean's List: Spring 2022
- **Relevant Coursework:** Data Science, Statistical Modeling, Probability & Statistics, Applied Regression Analysis, Machine Learning, Artificial Intelligence, Algorithms, Information Theory

CERTIFICATIONS

- **Microsoft Certified: Fabric Data Engineer Associate (DP-700)**, Microsoft, Oct 2026
- **SQL (Advanced) Certificate**, HackerRank, Sep 2025

EXPERIENCE

EDC Lancaster County, Center for Regional Analysis — Lancaster, PA
Data Analyst Fellow — *Aug 2026 – Present*

- Build interactive Power BI dashboards on labor force, unemployment, GDP, and wage data from BLS and BEA, comparing Lancaster County with state and national benchmarks to support economic development briefings.
- Developed a Google Sheets–backed web dashboard with time-series filters, automated imports, and a Gemini AI assistant that summarizes trends and flags anomalies for non-technical users.
- Produced a downtown economic analysis and presentation, built dashboards for partner organizations, and translated stakeholder feedback from the Director of the Center for Regional Analysis into design and metric changes.

KCC Capital Partners — Sheridan, WY
Data Science Intern — *Jan 2026 – May 2026*

- Cleaned and analyzed datasets on precious-metal and mining companies, markets, and transactions; enriched contact data with Seamless.AI to improve data quality.
- Applied statistical models and predictive analytics to identify likely buyers for active mandates, and supported valuation and market-forecasting research with dashboards and automated reports.

KPIM Joint Stock Company — Hanoi, Vietnam
Data Engineer Intern — *Jan 2021 – Apr 2021*

- Automated legacy client data workflows with Python and SQL Server, reducing processing time by 30% and eliminating manual errors; validated Power BI reports with the analysis team.

Quantitative Science Center, Franklin & Marshall College — Lancaster, PA
Technology Support Assistant — *Sep 2021 – Sep 2022*

- Resolved 50+ technical incidents per week, maintaining 99% classroom uptime, and cut semester setup time by 40% with standardized imaging.

PROJECTS

Can Mail Data Predict Housing Vacancy? | *Microsoft Fabric, Dataflow Gen2, Lakehouse, Power BI* — Sep 2026

- Tested whether USPS mail data can act as an early-warning signal for Census housing vacancy across 6 counties and 15 years; evaluated correlation (pooled r = 0.77), directional accuracy (57.7%), and bias, and published the results in an interactive Power BI report built on a Fabric Lakehouse and Dataflow Gen2.

Grocery Transaction Data Warehouse | *SQL Server, T-SQL* — Jul 2025 – Aug 2025

- Built a Medallion-architecture (Bronze → Silver → Gold) warehouse over 131M+ rows with stored-procedure ETL, a star-schema Gold layer, and automated data-quality tests.

Sales Planning Analysis | *Power BI, DAX, SQL Server* — Aug 2025

- Built a KPI dashboard tracking actual vs. planned revenue across 58K+ transactions by store, product group, and district, with plan completion %, YoY growth, rolling 12-month trends, and drill-through to store detail.

RFM Customer Segmentation | *Power BI, DAX* — 2025

- Scored customers on recency, frequency, and monetary value with configurable thresholds and mapped each R-F-M code to one of 9 segments with a recommended marketing action.

TECHNICAL SKILLS

Analysis & BI: Power BI (DAX, Power Query), Excel (pivot tables, lookups), dashboard design, KPI development, statistical analysis, regression
Languages & Data: SQL (T-SQL, MySQL), Python (Pandas, NumPy, Matplotlib), R (ggplot2), Google Apps Script
Platforms: Microsoft Fabric, SQL Server, Power Automate, Google Sheets; public data: BLS, BEA, Census ACS, USPS

LEADERSHIP

Diplomatic Congress, Technology Committee, Franklin & Marshall College — Aug 2021 – Aug 2022

- Reduced classroom technology costs by 18% through IT policy work with 10+ committee members, and centralized software license management across 15+ departments.
